

TERDOO ACHU

Zebulon, NC 27597 | Terdoopshaahu@gmail.com | (919) 986-8602

EDUCATION

University of South Carolina
Bachelor of Science in Computer Science, Overall GPA: 3.59
Certificate: Data Analytics and Visualization
Honors/Awards: President's & Dean's List

Columbia, SC
May 2026

RELEVANT COURSEWORK

Algorithmic Design I & II | Digital Logic Design | Advanced Programming Techniques | Calculus I & II
Discrete Structures | Computing in the Modern World | Introduction to Computer Architecture

RELATED EXPERIENCE

University of South Carolina Student Affairs Technology Services
Technical Project Manager

Columbia, SC
Feb 2023 – June 2025

- Managed cross-divisional IT system updates through centralized ticketing software, optimizing system performance and reliability
- Collaborated cross-departmentally to support strategic technology initiatives and operational objectives
- Charged with the oversight of moving all IT equipment across various departments, ensuring all computer set-up and teardown was down with limited interruptions to employees' daily workflow.
- Coordinated and handled the logistics of the move, scheduling times for movers to come in and move the equipment, communicated with in-house customers to ensure they still had access to vital equipment.

Hitachi Rail USA
Test and Database Engineer

Batesburg-Leesville, SC
June 2025 – Current

- Spearheading a reverse engineering initiative for the company diagnostic reporting system, including full technical documentation across 20+ SQL Server tables, stored procedures, registry configurations, and test pipelines
- Led a team of 7 engineers across branches through weekly sync reviews, delegated subsystem assignments, and ensured documentation integrity across measurement logs, Burn-In reports, and invalid test recovery logic.
- Integrated reverse-engineered insights, debugging systemic flaws, and rewriting schema logic and stored procedures, resulting in a streamlined and robust database system with enhanced performance, traceability, and data integrity, setting a new operational benchmark beyond prior implementations.
- Designed comprehensive database queries for quality assurance audits, enabling faster detection of data anomalies and improving reprocessing rates for previously invalid entries.

WORK EXPERIENCE

YIK YAK
Brand Ambassador

Columbia, SC
Aug 2023

- Built relationships and personalized future client development opportunities by collecting customer data
- Demonstrated proficiency in event Tech, overseeing set-up and teardown of events with a tech-forward mindset

LEADERSHIP EXPERIENCE

Gamecock Club Football Team Captain

Jan 2023 – Current

- Orchestrated early morning assemblies of team members and their equipment for weekly away games
- Led team during warmups and games, stepping in for coaches and representing the team in press conferences

Pi Mu Epsilon – Vice President

Aug 2024 – Current

- Facilitation meetings, organizing competitive events, collaborating with chapters at other schools
- Mentor freshman students and new members as well as tutoring them

College of Engineering and Computing Peer Leader and Mentor

Jan 2024 – Current

- Assisting students in their transition from high school, making them aware of all the resources available to them
- Taking Mentee under my wing and assisting and guiding them on their College journey
